NOTE: All dimensional items shown are based on 37" truck frame height.

Cans must be flagged during the day or lighted when dark.

* Add 36" for Toter cart platform. Add 24" for behind-the-cab toolbox or lid holder. Typical CA is 84" without Toter cart platform.

* The above capacity ratings are based on container's center of gravity out 24" on forks. With a loaded container, travel is limited to 20 MPH on a smooth, level terrain. **!!WARNING!!** Increased speeds and rougher terrain will substantially reduce the rated capacity of the container handler. Do not exceed rated capacity of (1) container handler, (2) container, or (3) truck. Doing so may result in damage to equipment and/or injury to persons.
